

## **New First Aid Kit for the home makes it easier to repair your things**

**Clas Ohlson is now launching the First Repair Kit so you can repair your things instead of buying new products. This practical kit contains 11 different products for making simpler reparations in your home. Contents include repair tape, different types of glue, screws, nails and a sewing kit.**

“With the new repair kit from Clas Ohlson, you will have what you need to repair most things that break in your home. To make it easier to repair and fix things, simple instructions are included to explain how the products should be used. Our staff in the stores will also gladly answer questions and give you tips and advice,” says Eva Berg, Director of Purchasing and Product Development.

Repairing stuff that breaks does not have to be complicated, no matter if it is a broken plate or you have a hole in your wellies.

The First Repair Kit makes it a bit easier for you to live more sustainably.

“Repairing stuff which you already have can make a big difference. With the First Repair Kit we make it easier for people to do their bit for the environment on a daily basis. This makes me both happy and proud,” says Eva Berg.

You can buy the First Repair Kit on [clasohlson.com](https://www.clasohlson.com) and in all Clas Ohlson's stores. The first repair kit costs 299 SEK.
